App layout works on both iPhone and iPad in portrait orientation	8	6
Meaningful use of class names, comments and variables	5	4
Use of Core Data to store favourites	12	10
late penalty		
Total Awarded Points		**66**

Comments:

Papers are organised in ordered by year but does not starts from 2018. There is no filter to remove unwanted markup from Abstract. The program cannot display the full PDF paper. It would be better if the layout of the App on iPad to be more organised.
